

# RADOX® UL 3266 / CSA AWM I A/B

## Flexible single core

- excellent high and low temperature and ozone resistance
- weatherproof
- halogen free
- high abrasion resistance
- resistant to impregnation resins and varnishes
- easy to process
- soldering resistant
- flexible

### Application

Protected and fixed installation inside electrical equipment, especially suitable for the connection of motor windings, switchboards, magnets and transformers.

### Composition of cable

|              |  |
|--------------|--|
| ① Conductor  | stranded tin plated copper, acc. to EN 60228, class 5                              |
| ② Insulation | RADOX® 125   |
| Core colours | extruded and electron beam crosslinked polyolefin copolymer<br>various, on request |

### Technical data

|                                   |                         |
|-----------------------------------|-------------------------|
| Voltage rating U <sub>o</sub> / U | 300 V AC                |
| Test voltage                      | 2000 V AC               |
| Operating temperature             | (UL temperature rating) |
| Min. temperature                  | +125 °C                 |
| Min. bending radius               | -40 °C                  |
|                                   | 3 x core-dia.           |

### Approvals

|     |                                |                  |
